NO. OF PAGES 2

NO. OF ENCLS.  
(LISTED BELOW)

ACQUIRED

**SUPPLEMENT TO  
REPORT NO.**

DATE OF IN  
25X1X6

1. About 800 persons are employed at present at the ROMSA oil refinery at Fiume. The director is Engineer Zerianski and the assistant director is Nello Biagini.
2. Since October 1948 a UDB official has had control over personnel activities.
3. As a result of the Tito-Cominform split, all shipments of petroleum from Albania have been suspended. About every 25 days the tanker JAJCE unloads about 9,000 tons of naphtha at Fiume. This naphtha is mostly supplied by Iran.
4. The supply of fuel is carried out according to a commercial agreement reached four or five months ago between the Yugoslav Government and a British company which owns the oil wells in Iran. In exchange for the naphtha, Yugoslavia supplies England with copper, lead and timber.
5. The tanker JAJCE was sold by England to Yugoslavia about ten months ago.
6. It is estimated that the daily production at the Fiume refinery is about 150 to 200 tons of gasoline, 100 tons of kerosene, 40 to 50 tons of heavy oil, and 200 tons of paraffin and asphalt.

7. There are about 2,600 persons employed at the silver, lead and zinc mines. The director is Misa Jovanovic and the assistant director is one Gluscevic.
8. The mines cover an area of about 12 kilometers. There are five underground galleries and five shafts of 500 meters each.
9. The mineral is transported by means of a narrow-gauge electric railway consisting of 15 to 20 small cars which carry the ore to shaft No. 3-

From there the ore is brought to the surface by electric elevators. The ore is then transported by means of an elevated railway 12 kilometers long to the Zvecan industrial plants, where the ore is separated.

10. The average daily production at the Trepca mines is about 1,500 kilograms of silver, 100 tons of lead and half a ton of zinc.
